RIYMAR

## YOUR website Your ADDRESS

Businesses without a website could loose between 70% to 80% of their potential customers.

INFO@YOURCOMPANY.COM

## **BEFORE YOU START...**

## 4 ESSENTIAL TIPS FOR A SUCCESSFUL WESBSITE

In today's digital world, having a website for your business is essential. A website can help you reach more customers, showcase your products or services, and build trust and credibility. A website can also help you stand out from your competitors and grow your brand. Whether you want to sell online, generate leads, or share your story, a website can help you achieve your goals and take your business to the next level.

#### Design

Your website should be visually appealing, easy to navigate, and optimized for mobile devices.

#### Content

Create engaging and valuable content that resonates with your target audience

#### SEO

Implement Search Engine Optimization (SEO) strategies to improve your website's visibility on search engines

#### **Customer Acquisition**

Develop a clear customer acquisition strategy.

# Website builder iON Basket Step by Step Instruction

Banner: The banner block will help you to add banners to your website. When you open a website, banners will be the first element that appears on the homepage. You can use these blocks to grab extra attention to featured content or information.

**The cover block** can be used as the main page designing block with a catchy headline and small description of the product, service, or main feature of your website

SUPPORT@IONOMAN.COM

**Features**: This block will help you add the main features of your business to the main page. In clear words, you can give brief descriptions of the features using this block.

				$\frac{45}{\pm} \frac{91}{\pm}$			
				Numbers	Picture	Columna	

**Media List**: The Media List block will be helpful to add details about your business operations and media communication using a left- or right-aligned image with descriptive content.

SUPPORT@IONOMAN.COM

**Text-Image and Image-Text**: Using these types of blocks, you can add text and images together with related to the content of the web page.

**Title:** As the name suggests, the title block is used to add a heading to your site.

**Text:** To add text about anything related to your business on your website, you can use the Text block.

Numbers: The Number block is basically used to add numbers to your website. The count of products and features on your website can be displayed using this block.

**Picture:** With the help of Picture block, you can easily add vibrant images to your site and add brief notes about the image.

**Columns:** To add columns to your website, use the Columns block. You can add more columns to the site by simply duplicating one of the given columns.

**Big Boxes:** Big boxes can be used to highlight the features of your website inboxes. You can choose colors or images for the background to present the content in an effective way. It is possible to resize and duplicate the box to create your own layout.

INFO@RIYMAR.COM

**Features:** This block will help you add the main features of your business to the main page. In clear words, you can give brief descriptions of the features using this block.

**Masonry:** If you want to add additional titles for an illustration on your web page, you can use this block.
